About us

WE ARE SMALTUM, read on about our colourful life...

We are a small family business from Prague, Czech Republic. We design enamelware and enamel jewellery have done so since the early 90's! Back then, Markéta and František (brother and sister Novotný) set up their first kiln in a garage and started selling mugs and jewellery on Charles Bridge in Prague. Since then we had been on a massive journey. Today, we have got 7 brick and mortar shops in Prague city centre and we export to 19 countries around the world!

Markéta is the designer. She fell in love with enamel when she was in school and was experimenting with different media. Enamel is known for its durability and chemical stability. The colours never fade and our enamelware is not just a pretty decoration to display but it is meant to be used! For cooking, camping, or as a flower pot to mention just a few... And our jewellery? It is an conversation starter! Bold colours, beautiful shapes and it will last for generations :)
